

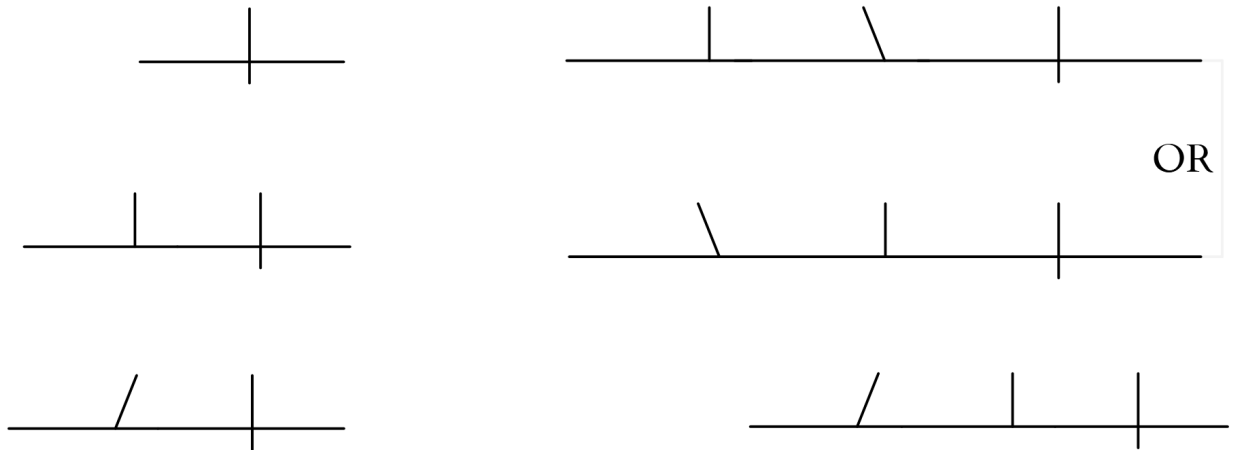

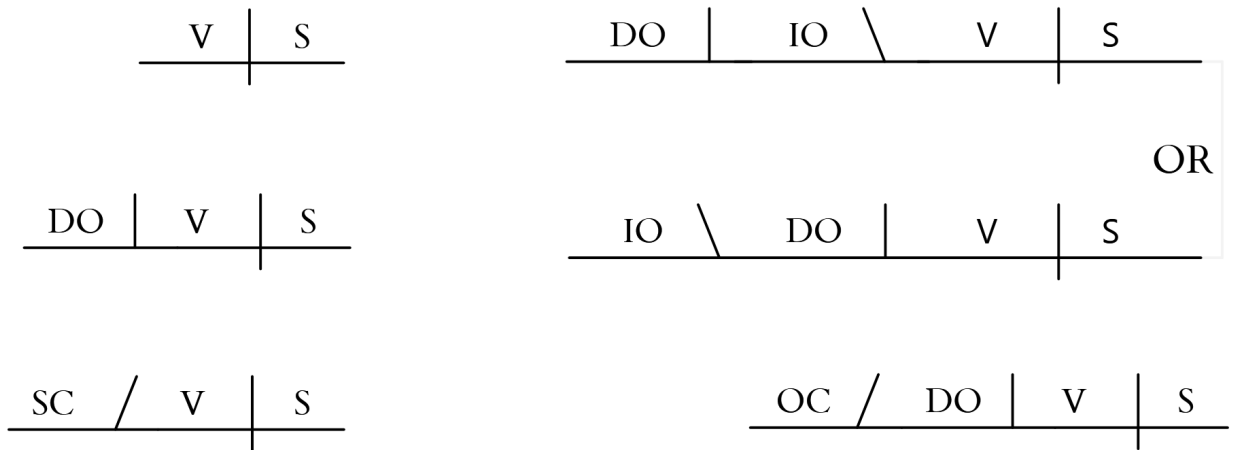

Diagramming Quiz PRACTICE SHEET

For your quiz, I will give you a sheet like this and ask you to place the right symbols in the right constituent slots on each diagram. Note that S V IO DO sentence patterns might have 2 options for which order the IO and DO go in (hence the OR). Here's what you'll see on the quiz (but in a different order!):

Here's what you should have written when you return the quiz to me:

In addition, I will give you a few sentences (in English) to label the sentence pattern and then diagram to ensure that you know how to put your diagramming to good use. So, please photocopy the top part of this practice sheet and drill yourself until you can fill in all the slots for each of the 5 diagram structures. Review the handouts and homework keys with worked diagrams to ensure you know how to diagram sentences.
